

**Korean Society of Dance Studies**

**Sejong Research Institute for Dance Content, Sejong University**

### **33rd Biennial Conference of ICKL**

July 17-22, 2023

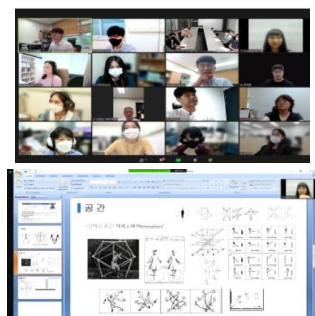

## **Korean Society of Dance Studies**

**The Korean Society of Dance Studies (KSDS)**, founded in 2001, is an academic community for dance studies. It introduces various research topics suitable for the present era and pursues academic maturity through convergence among disciplines. KSDS regularly publishes academic journals (KCI-registered journals) and promotes research in the field of dance through academic conferences. We seek to fulfill our role and responsibility in society by finding ways to develop and support academic programs focused on young researchers.

## **Sejong Research Institute for Dance Content**

**The Sejong Research Institute for Dance Content** carries out various services, including academic research, culture and arts education, professional training, and industry-academia cooperation projects, to promote the value of dance art in society and explore ways to popularise it. For many years, this institute has successfully implemented cultural arts education projects subsidized by the Korea Arts and Culture Education Agency, achieving educational goals and contributing to society. It also leads the technical convergence of dance as a joint research institute for the Cultural Technology Development Project.

## Department of Dance at Sejong University

Since its establishment in 1978, the **Department of Dance at Sejong University** has focused on the improvement of students' qualities through a complete curriculum and the provision of theoretical and practical education under the guidance of excellent faculty members. In particular, with the appointment of Professor Hyoung Nam Kim to the **Department of Contemporary Dance** in 2009, the dancing spirit of the venerable Tatmaroo Dance Company (depuis 1986) was inherited. Current students and alumni are active in various fields of the Korean dance world as professional dancers, choreographers, educators, researchers, performance planners, and arts administrators.

## Facilities and Support

**Daeyang AI Centre** is a "smart building". With a total floor area of 51,981.05m<sup>2</sup>, it has 5 underground floors and 12 above-ground floors and is equipped with SW research facilities, start-up support space, state-of-the-art lecture rooms, practice rooms, and dormitories.

The conference room (B107) on the basement floor, which will be used for this conference, has 200 seats and is equipped with equipment and facilities for presentations.

The workshop will be held in the Yongdeok-gwan Modern Dance Room (202), not in the Daeyang AI Centre. The distance between Daeyang AI Centre and Yongdeok-gwan is about 3 minutes.

## Practical Information
